Bind Them Up

Hundreds of Traffic World subscribers, appreciating the value of the publication as a permanent reference work, have their copies permanently bound in book form.

Our charge for doing this kind of work is only $1.75 net per volume, and we do it right, a good quality of law buckram being used, and the volumes being properly marked in gilt letters on red and black leather labels.

It takes less than a minute to cut a stencil with the Ideal.

A few strokes with a brush transfer a clean-cut address.

How Stencil Machines Speed up Shipping Room Service

In shipping rooms where the highest efficiency has been developed, a stencil machine operator cuts a stencil for every shipping order. The cut stencil is sent along with the order and is used by the packer to mark the box when the order is assembled and packed.

In this way absolute accuracy in marking is insured. Whoever packs the order does the marking—checking is easy and accurate delivery of the goods is insured.

For marking everything from parcel post packages to the huge boxes and crates for export shipment there is an Ideal of the right size. And a stencilled address can be applied to any surface where hand marking can be done.

The unusual speed and accuracy with which any one can cut stencils with the Ideal stencil machine are due to exclusive Ideal features. The entire operation of stencil cutting is mechanical. No time is lost fussing with the paper to space and start new lines. The carriage is self-starting. Line and word spacing is done automatically.

At your request, we will gladly place an Ideal at your disposal without obligation to you. Try it out on your own shipping problem. Send for our free booklet, "Safeguarding Your Shipments."

Birmingham, Alabama,

**Messrs. Merchant & Manufacturer,
Central West, U. S. A.**

Gentlemen:—Do you know that you can receive or ship goods through Mobile quicker and cheaper than through any other Port? You are looking for dollars; why not look this way? It will pay you.

More dollars can be saved and made by cutting transportation costs through proper routing and forwarding than ever before. If your business is between lines drawn through Buffalo, Pittsburgh, Lynchburg and Pensacola on the East, and Shreveport, Little Rock, Kansas City and Sioux City on the West, there are dollars awaiting your action.

Do a little; look at the map:

Mobile has a 20% differential over all rail rates via the Mississippi Warrior Waterways from most points in the Central West. Barges are making regular trips. Rates on request.

New 10,000-ton freighters made of Alabama steel are leaving Mobile with regularity — for all parts of the world. Sailing schedules on request.

Send a card—Do it now!

Your request will bring particulars of saving in freight rates, saving in Port and handling charges and in storage and forwarding expenses. "Action oft resolves the doubt that theory can't remove."

Ships are ready; cargo space is available; there is no congestion, no delay, no excessive Port or handling charges; nothing but your action needed to begin saving that money. Resolve that doubt!

We receive, forward, tranship, store, insure, distribute bulk shipments in contiguous territory and issue negotiable receipts against all kinds and classes of commodities.

Ask any bank in Birmingham or Mobile.

Yours truly,

W. D. NESBITT, President.

For Automobile Shippers Between the East and West

If located in cities where company's representatives are stationed, a telephone call will bring our solicitor to your office or residence. From other points a letter of inquiry will give you rates and particulars by return mail.

We have been accorded the privilege of referring to a number of prominent citizens both East and West whom we have had the pleasure of serving and will gladly submit their names if desired.
